

Le infinite possibilità della bellezza modulare. Una storia da scrivere con MATITA.

MATITA. Il nome parla subito di un'ispirazione semplice ma suggestiva, una forma matrice che diventa pattern grafico, decorazione piana che compone scenari moderni. Semplicità solo apparente, che si traduce in una sofisticata rivisitazione del parquet classico.

Il sistema, modulare, apre a possibilità combinatorie pressoché infinite, che permettono di assecondare gli stili e gli ambienti più differenti.

MATITA è proposta in tre essenze pregiate – noce americano, noce europeo, rovere – che consentono di declinarla in diverse situazioni progettuali. Nelle sue composizioni interviene il tocco elegante degli intarsi di ottone brunito, marmo di Carrara e marmo nero Marquinia, per un dialogo di materiali che crea texture ora pulite ed essenziali, ora volutamente ridondanti, quasi barocche. Inoltre, cinque tinte dai colori sofisticati arricchiscono e valorizzano la collezione. Il risultato è ogni volta unico e differente, una personalizzazione compositiva e cromatica ulteriormente potenziata dagli inserti in legno che possono essere collocati tra i moduli.

Un nuovo Sistema Parquet, che esalta e mette a frutto al meglio i punti di forza di Foglie d'Oro, la sua profonda conoscenza del legno, le sapienti lavorazioni, le finiture realizzate a mano: la bellezza modulare di MATITA scrive un diario intimo, che esprime l'anima di chi la sceglie.

The infinite possibilities of the modular beauty. A story to write with MATITA.

MATITA. The name is about a simple but suggestive inspiration, a matrix form that becomes graphic pattern, plain decoration that composes modern scenarios. Only apparent simplicity, translated into a sophisticated restatement of the classic parquet.

The modular system opens up to endless possible combinations, that allow to please different styles and environments. MATITA is proposed in three prestigious essences – American walnut, European walnut, oak – that allow to decline it in different design situations. In its compositions intervenes the elegant touch of the insert in burnished brass, in Carrara marble and in Marquina black marble, for a dialogue of materials that creates clean and essential textures, now deliberately redundant, almost baroque. Furthermore, five sophisticated colours enrich and enhance the collection. The result is different every time, a compositional and chromatic personalization even more enhanced by the wooden inserts that can be placed between the modules.

TAILORMADE PROJECT

La personalizzazione di MATITA
va oltre la straordinaria possibilità
compositiva dei suoi moduli:
le preziose essenze di Noce e Rovere
possono essere scelte in tutte le finiture
proposte da Foglie d'Oro.
Per questo, ogni progetto MATITA
è un progetto speciale.

*The customization of MATITA goes
beyond the extraordinary compositional
possibilities of its modules: the precious
essences of walnut and oak can be
chosen in all the finishes proposed by
Foglie d'Oro. For this reason, each MATITA
project is a special project.*

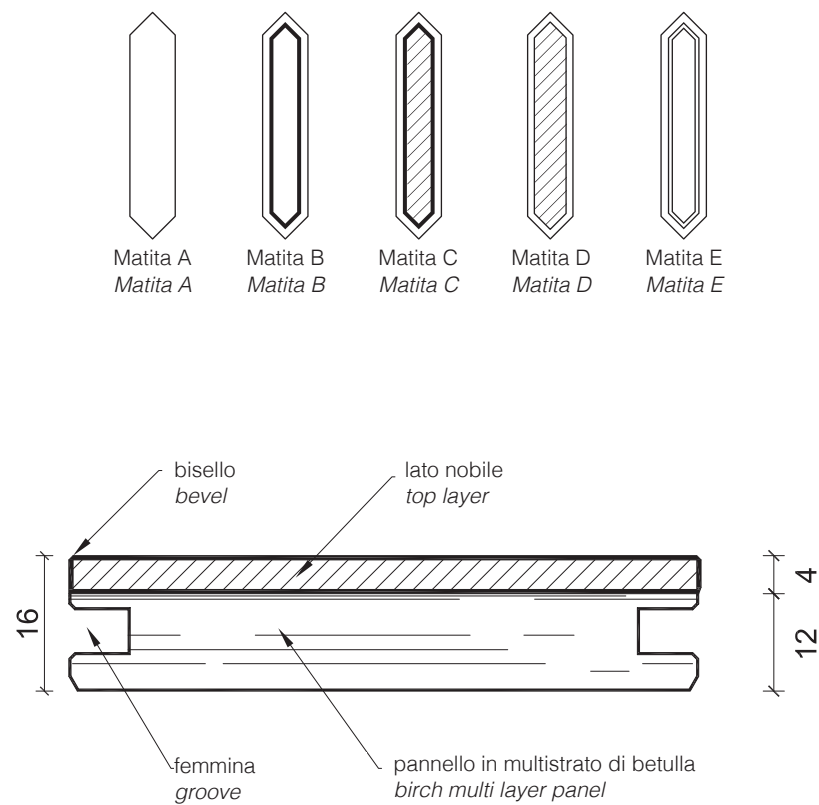

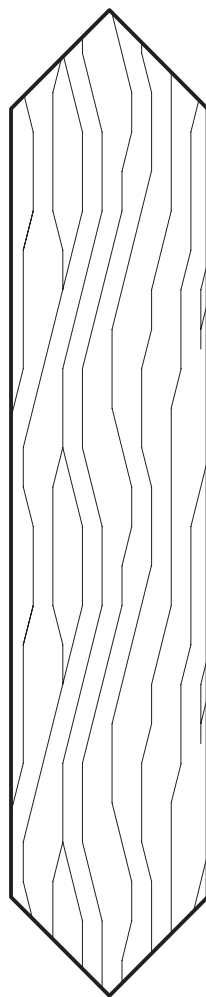

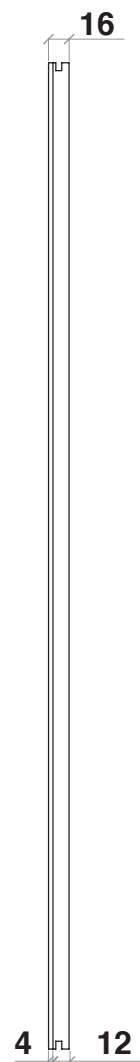

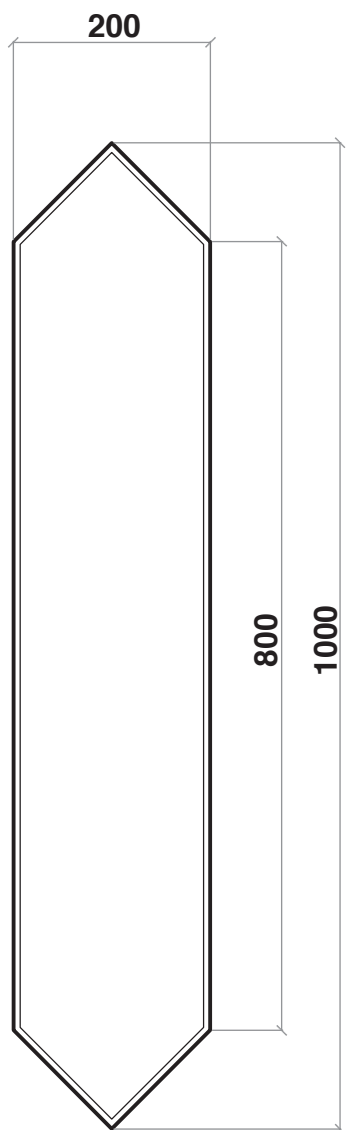

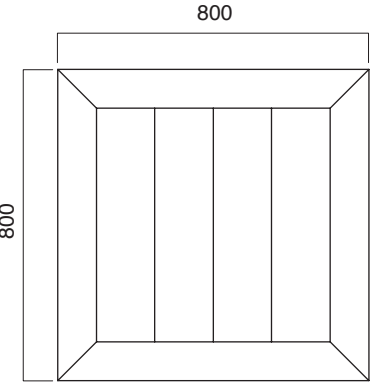

Dati tecnici modulo / *Module technical data*

Modulo prefinito a due strati, bisellatura su tutti i lati, incastro perimetrale femmina - femmina.

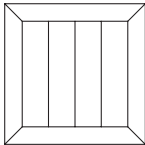

Engineered prefinished 2 layers module, bevel on all sides, groove&groove connection.
